Ontario Electricity Rebate & Price Plan Declaration Form

Effective **November 1, 2019**, the Ontario government introduced the new Ontario Electricity Rebate, under the *Ontario Rebate for Electricity Consumers Act, 2016*.

Residential, seasonal, and small business customers, as well as any customer who is using less than 250,000 kilowatt hours a year are by default billed the Regulated Price Plan Time of Use (RPP TOU) rates and are automatically eligible for the Ontario Electricity Rebate (OER).

Other commercial customers with a demand above 50 kilowatts and annual consumption above 250,000 kilowatt hours may be eligible to receive the Ontario Electricity Rebate if they meet at least one of the eligibility criteria located in Section B.

Effective November 1, 2020, in accordance with section 3.5 of the Ontario Energy Board's Standard Supply Service Code, RPP TOU consumers now have the option of being charged RPP Tiered pricing. Consumers that have an interval meter also have the option of being charged the Hourly Ontario Energy Price (HOEP).

If your account has more than one unit associated to your premise, you must complete Section C.

Your account will be adjusted upon receipt of this signed and completed Declaration Form. Any delay in processing as a result of missing or inaccurate information on the form will NOT result in adjustments to previous billings. Do not include units that are metered or billed separately from the account referenced.

At any time after submitting the self-declaration form, you may choose to switch between the RPP TOU, RPP Tiered or HOEP pricing. Requests to change your price plan can be sent by fax/mail/email and should include your account number and your service address. If the request is submitted by a third party, please include a letter of authorization permitting the third party to act on your behalf. If you change your price plan, the change will be effective as of the next actual meter reading.
